

Multi-modality advanced surgical course with cadaveric dissection

September 18-20, 2020
HYGEIA Hospital
Erithrou Stavrou 4, Marousi 151 23, Greece

Dear participants,

Welcome to the Multi-modality cadaveric dissection course on Colorectal Minimally Invasive Surgery (MIS), organized by Ethicon.

This 3-day course includes live Laparoscopic Colorectal Surgery, tips and tricks sessions and Cadaveric Dissection hands-on training on Laparoscopic right colectomy, left colectomy and low anterior resection. For each group of 2 participating surgeons, a trainer, a cadaveric model, an operating room and an O.R. nurse will be assigned.

Physicians who work together are encouraged to participate as a team.

We wish you a very instructive course!

Dr. Constantinos S. Mavrantonis,
Program Director
Chairman, Founder NoDE Institute

Faculty

Dr. Boltsis Nikolaos
